

Dynamic Engineers Inc.

2550 Gray Falls Dr., Suite#128, Houston, TX, 77077 USA TEL: 1-281-870-8822 EMAIL: Sales@DynamicEng.com

Features and Benefits

Frequency range: 10MHz Supply voltage: 5.0V Steady current: 2.5W Max. Output waveform: HCMOS Frequency stability vs. operating temperature: ±0.5ppb Aging: ±20ppb per year Phase noise@100KHz: -160dBc/Hz Operating temperature: -40°C to +85°C Size: 36x27x18mm

Typical Applications

SATCOM System Cellular Base Stations Radar Applications

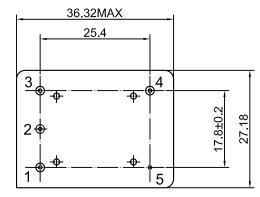

Description

DOCXO3627BM-10MHz-622 is designed for applications where exceptional frequency stability and timing is required. It has both excellent temperature performance and short-term stability. These characteristics make it an excellent choice for timing applications requiring holdover of < 10 us for 24 hours.

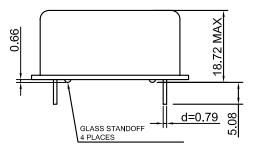

Mechanical Drawing & Pin Connections
